Madagascar 2026

1 SUMMARY

Primary Eye Care — Knowledge & Skills

History → Vision/Pupils → Front of Eye → Fundal Reflex → Back of Eye

ATOMS

WHO

V6 /26

University of St Andrews

Arclight Project

CVI = Eyes: no smile return, not reaching, holds close, roving eyes, easily startled; **CVI > Eyes:** stares at lights, noisy/busy places or clutter difficulty;
Eyes > CVI: fast wobbly eyes, eye poking

birth, epilepsy, trauma/drugs

GRADUAL↓ *months*

DISTANCE > *distance glasses*
cataract, glaucoma, DR, cornea

NEAR > *longsight or reading glasses*
+1.5, 2.0, 2.5, 3.0

SUDDEN↓ *days*

blanch, haze, abrasion

red eye, trauma/chemical, cornea, back of eye > *hospital*

irrigate 30 mins

guide the blind

Normal	Low Vis	Blind
6/6	6/18	3/60
3/3	3/9	1.5/30

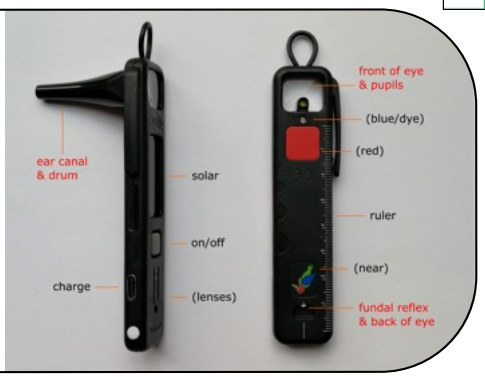

2 ARCLIGHT

Congenital Cataract
both eyes: stops vision
growth > *reflex* ↓
> IOLs, glasses/CLs

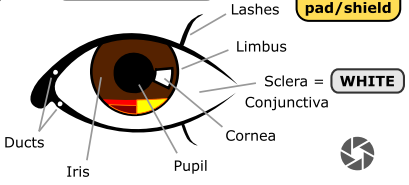

Retinopathy of Prematurity (ROP)
↓2kg/4.4lb or 6wk early
RD risk, blindness
> by 4wk needs expert
BIO+laser/aVGEF

Congenital Glaucoma
big eye(s), photophobic, watery, hazy cornea
> IOP↓ > Surgery

Co-ordination: eyes, head/neck, limbs

3 ANATOMY

clean+ABx pad/shield

Baby swollen+ pus
> *CLEAN ABx*
Fever
> ABx tablets

3mth+ itchy/ watery
> *CLEAN ABx/allergy*
same 3day
> hospital

STD

EYES STRAIGHT/FOLLOW FACES

IN — *> glasses* — OUT

DULL Eyes
ANY odd look

Xero, measles, diarrhoea
> Vit A+good food

4 RED EYE

Sympt: *Pain, W-I-G*
Signs: Red, 1-2, Pus
Exam: VA, Ant Seg

Dry eye
Episcleritis
gritty
> lubricant
clean

instil drops +ointment

Sub C Haem
part/all
> BP, ~2wk

IRITIS
photophobia, pupil↓
limbitis, KP
> dilate+steroids

SCLERITIS
dull pain++
deep vessels
> steroids

KERATITIS
pain++, VA↓
> stain

	LID-LASH	FOREIGN BODY
DRY EYE/EPI S		
ALLERGIC		
VIRAL		
INFECTIVE (PUS)	IRITIS	SCL
SUB C HAEM	KERATITIS	ACG

RED VA↓

PAIN →

CONJUNCTIVITIS (2 eyes)
> evert lumps OLD itchy,
Allergic *> clean, drops*

OLD/NEW yellow, gritty
Bacterial *> clean, self-limits/ABx*

NEW watery **Viral**
> clean, self-limits

5 PUPIL

REACTS ✓

NO react
> hospital
child Urgent

Sleep/Eat
Move/Think
Sun WELL

EQUAL
R -- L

BLACK **ROUND**

CATARACT/RB
poor vision
> hospital

GLAUCOMA
oval, pain+++
> Urgent

Fundal Reflex

know the glow

Normal	RB	Cataract
yellow/orange to blue	*BV+patchy white*	*dark*

6 HOW TO USE

Front of Eye

Observe and compare eyes:
straight, right, left, up, down.

Hold & get close. Examine:
lids, conjunctiva, cornea, pupil.

Use with fluro for corneal ulcers or scratches.

Fundal Reflex

Dim room, baby happy; at arms-length - compare reflexes.

Equal: ***B****rightness,* ***C****olour,* ***S****hape.*

Go closer for details: *Scar, cataract RB, Vit Haem.*

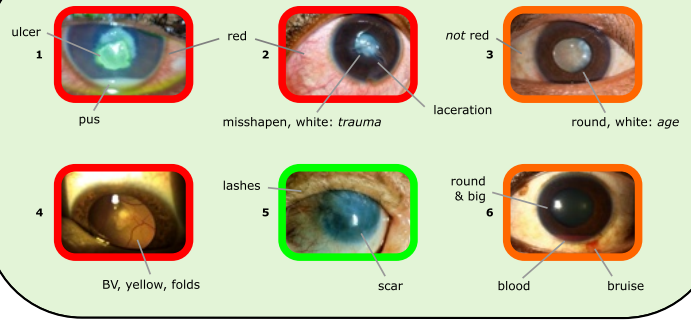

Back of Eye

Use right eye to view Px's right eye; left for left. Px must look straight NOT at light; Get close and find optic disc. (Dilate = best view.)

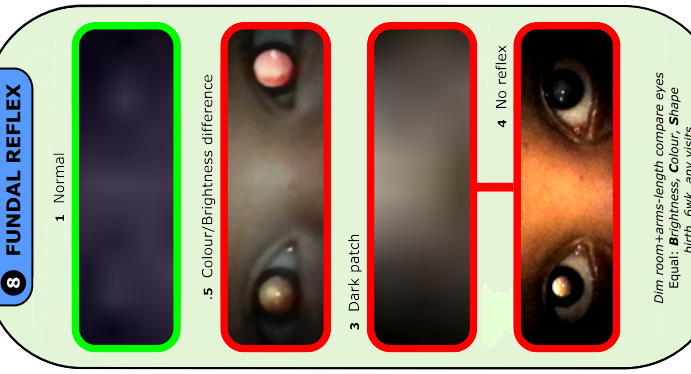

Study disc: ***M****argin,* ***C****olour,* ***C****up.* Track big vessels, then ask Px to look directly *into* the light to see macula.

Know your discs: normal, ***swollen***, new vessels, cupped, pale. >Practice often<

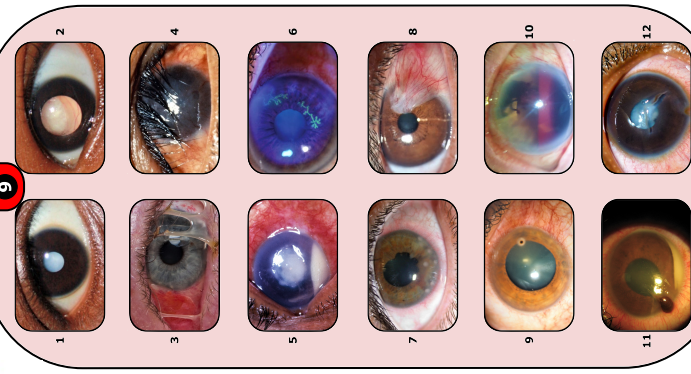

7 FRONT OF EYE

8 FUNDAL REFLEX
